

HOPE support Empathy Caring Education

Ventura City Firefighters will be joining fire departments throughout the country in support of women in the fight against breast cancer. We will be wearing pink uniform shirts as our station uniform for Breast Cancer Awareness Month.

The Ventura City Firefighters Association is welcoming the public to join them in wearing pink VFD uniform shirts in the battle against breast cancer.

We are teaming up with the Downtown Ventura Organization to supply retailers with official Ventura City Fire Department pink uniform shirts that will be sold in various downtown retail locations. All proceeds will be donated to Ventura's own breast cancer support network -- **Ribbons of Life Breast Cancer Foundation** (venturariibbons.org).

Ribbons of Life Breast Cancer Foundation is an organization committed to providing breast cancer education, advocacy, and emotional and social support within Ventura County.
